SUSTAINABLE 100% BY END OF 2025

By 2025 Atlantis want to go bigger, making our collections 100% sustainable while investing in research and development to reduce our environmental impact, taking care of our employees and supporting local communities.

DECORATION ICON LEGEND | These icons throughout the catalogue indicate the recommended decoration for that product.

SC SUPACOLOUR
If you have a multi-colour, photo or even single colour artwork, Supacolour is the answer. Supacolour provides vibrant, crisp graphics whilst being very cost effective.

SS SUPASUB
Provides the solution for replicating full colour artwork on hard to decorate products. It is a sublimated patch which is then sewn directly onto the product.

sf SUPAFLEX
A branding option that expands on our great range of patches. Printing high detail logos onto vinyl with a matte or gloss finish and attached with embroidery for a quality result.

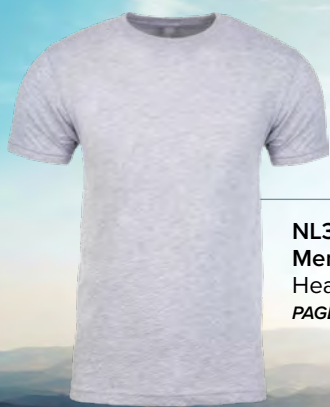

S SUBLIMATION
A printing transfer process which uses heat sensitive sublimation inks to permanently dye synthetic fabrics producing a full-colour, bright image.

e EMBROIDERY
This traditional method of decorating products with high density stitching on computerised multi-head machines is a popular favourite.

se SUPAETCH
Supaetch is a laser-etched Suede Patch, that comes in a range of colours, which is then sewn directly onto a wide range of products.

sp SCREENPRINT
A technique that uses a woven mesh to support an ink-block-ing stencil directly to the surface of the product. Perfect for 1 or 2 colour prints.

le LASER ENGRAVING
Laser engraving gives your logo a clean appearance by precisely etching it onto the material's surface.

Decoration

Legend Life has an inhouse team of decoration specialists who will execute your product branding using a range of leading edge decoration techniques.

Supacolour

Icon to show product can be decorated with this process.

Supacolour is an innovative method of branding a wide range of products with crisp, vibrant, full-colour graphics. This state of the art technology provides the ability to print and apply resilient, highly detailed logos and graphics while being very cost effective.

Embroidery

Icon to show product can be decorated with this process.

High density decorative stitching on fabric that evolved from handwork to today's high-speed, computerised multi-head machines. With state of the art embroidery equipment, thread and digitizing software, embroidery artwork can be applied on a wide range of products.

Supasub

Icon to show product can be decorated with this process.

Supasub is the solution for replicating full colour logos on hard to decorate products such as beanies, scarves, blankets & jackets. It is a sublimated patch sewn down onto the product, allowing for the logo to be in full colour, with fine detail. Supasub can also be an alternative when wanting to achieve a badge look and feel without the budget for embroidered badges.

Decoration

Supaetch

Icon to show product can be decorated with this process.

Supaetch is a laser-etched suede patch sewn directly onto a wide range of products such as bags, blankets, caps, beanies and scarves. Offering a range of suede colours to use as the base, it provides a flexible option to your decorating.

Supaetch showcases both the product and brand in a professional manner with a high perceived value.

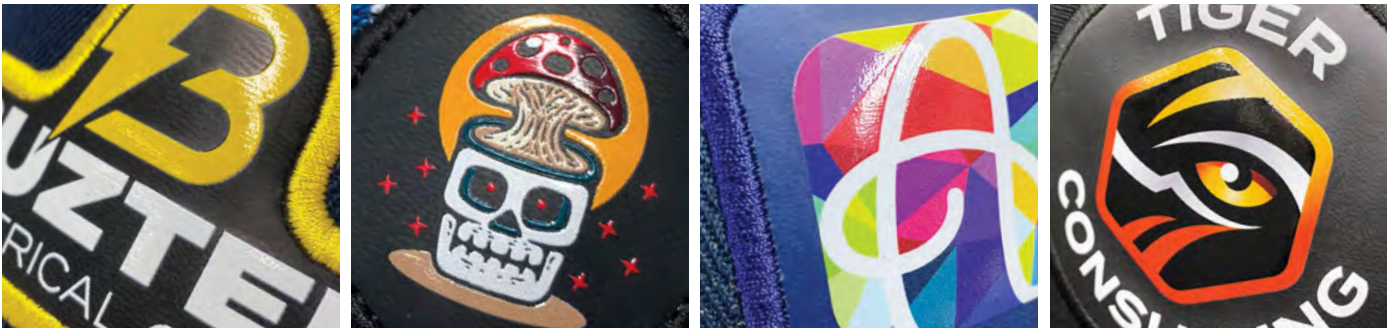

Supaflex

Icon to show product can be decorated with this process.

Supaflex is a branding option that expands on our great range of patches. Printing highly detailed logos onto vinyl with either a matte or gloss finish and attached with embroidery for a quality, unique result.

Perfect for caps, bags, beanies and scarves, Supaflex provides a fast turnaround and a simple to use pricing structure.

Sublimation

Icon to show product can be decorated with this process.

Sublimation or Dye Sublimation is a printing transfer process which uses heat sensitive sublimation inks to permanently dye synthetic fabrics producing a bright, full colour and crisp image.

We offer a range of towels that can be sublimated edge to edge meaning you can have an entire beach towel or a gym towel completely covered in any image, logo or design.

The only limitation is your imagination.

Screenprinting

Icon to show product can be decorated with this process.

A printing technique that uses a woven mesh to support an ink-blocking stencil directly to the surface of the product. It's the ideal decoration for a variety of fabrics and larger format applications. Generally used for 1 or 2 colour prints.

Sustainable practices are ever evolving. We are committed to minimizing our environmental impact and enhancing sustainable practices through responsible design, sourcing, and daily business operations.

Our road to sustainability began in 2015 when we introduced 5 styles into the market made of certified organic cotton. Today you can find 10 organic styles for men, women and children and 11 styles made from recycled plastic bottles in the Stedman® collection. We want to help you go green whether it is for the environment, our children or simply for your conscience. Together we can make a change.

Stedman® - More than just your average t-shirts!

OBSESSED WITH QUALITY

We're on a quest to make the best t-shirts we possibly can. That's why we're committed to ensuring quality in every fabric we use, every cut we design and all the details, so you never even have to think about them.

WHAT'S NOW. WHAT'S NEXT.

WE BELIEVE IN A SUSTAINABLE FUTURE

Being sustainable for us is not an abstract concept, but a daily behaviour. Each year we distribute millions of products throughout the world. We are therefore aware of the role we can play in contributing to a more sustainable future for the environment, for customers who choose us each day and for all the people who collaborate with us. That is why we work responsibly, creating accessories with a sustainable impact on the world.

PURE EARTH® SUSTAINABILITY

We're on a mission to make clothing sustainable through product design, sourcing and compliance. STORMTECH's Pure Earth collection is made using content from Recycled Polyester (RPET) and certified BCI Cotton. By turning discarded plastics into polyester and committing to sustainably sourced cotton, STORMTECH is reducing the waste and environmental impact associated with apparel production.

CERTIFIED BCI COTTON

- The Better Cotton Initiative (BCI) aims to make cotton production more sustainable.
- BCI Cotton promotes better working conditions for farmers and farm workers.
- Through BCI and its Partners, farmers receive training on how to use water efficiently, care for the health of the soil and natural habitats, and reduce use of most harmful chemicals.

RECYCLED POLYESTER

- The Pure Earth Collection uses Polyester regenerated from PET plastic found in landfills and oceans.
- These new sustainable products give materials a second life.
- As climate concerns continue to grow, sourcing recycled fibres will lower the carbon footprint of STORMTECH products.

DECORATION:**

Dye Sublimation

Sublimation is a printing transfer process which uses heat sensitive sublimation inks to permanently dye synthetic fabrics.

The process, which is called "Dye Sublimation", involves the use of a special heat sensitive dye to print your design onto paper. The printed paper is then placed with the synthetic fabric into a heat press and pressed for a pre-determined period.

The sublimation cycle transfers the design from the paper to the fabric. Sublimation is always done on white synthetic materials and at high temperatures.

As the sublimation process actually dyes the fabric, the colour is "in" the fabric and not on top, as is the case with traditional screen printing methods. This gives a much better feel to the product, as well as colour fastness and the ability to print unlimited colours.

As only white fabrics are suitable for sublimation printing, any "white" that you see in a sublimated design will actually be unprinted fabric.

Sublimation gives you the ability to create colourful, long lasting designs on these products - so get creative!

Purple Bow 49

HF349

A double 100's jacquard fabric, woven with white dots on navy background for a modern and sophisticated look. Combine it with the full suit or together with jeans, either way it will serve you well. Our newly developed fabric is made with a mechanical stretch for better comfort. The mechanical stretch is a new innovative way of giving comfort to a 100% natural long stapled, compact cotton fabric. It gives elasticity to the shirt of up to 12% stretch the weft way, and still keeps our great NON-IRON performance. This is innovative shirt-making at its best.

- 100% long staple 2-ply compact cotton, 124 G/M
- Innovative mechanical stretch
- Classic, pearl white 2.5mm thick buttons
- Curved hem
- Modern cut-away collar with soft underlining and hidden button down
- Navy jacquard fabric, woven with white micro dots
