IMPORTANT INFORMATION

Specifications, information and products featured in this catalogue are subject to change. Please contact us for more information and a quote.

Products displayed are not actual size and the logos used are for reference only to illustrate branding options. They are the property of their owners and represent no endorsement of this brochure or its content. Product colours illustrated are matched as closely as the print process will allow and should be considered to be approximate. Packaging design is subject to change.

Actual product colours can also vary from shipment to shipment and this is beyond our control. Always ask to see a sample to ensure the product colour and the product itself are suitable for the intended purpose as we do not accept returns due to minor colour variations or the product being deemed unsuitable once it is delivered.

ABOUT IMPACT AWARE

DESIGNED WITH TOMORROW IN MIND

Every choice we make matters. That's why we have launched our Impact Aware collection – a range of products that are lower-impact alternatives to standard promotional items.

These products have been selected for their materials and the positive way they give back to the community and the environment.

To understand the positive impact of your product choices, we've introduced three pillars:

Made with Recycled Materials

Made with Natural Materials

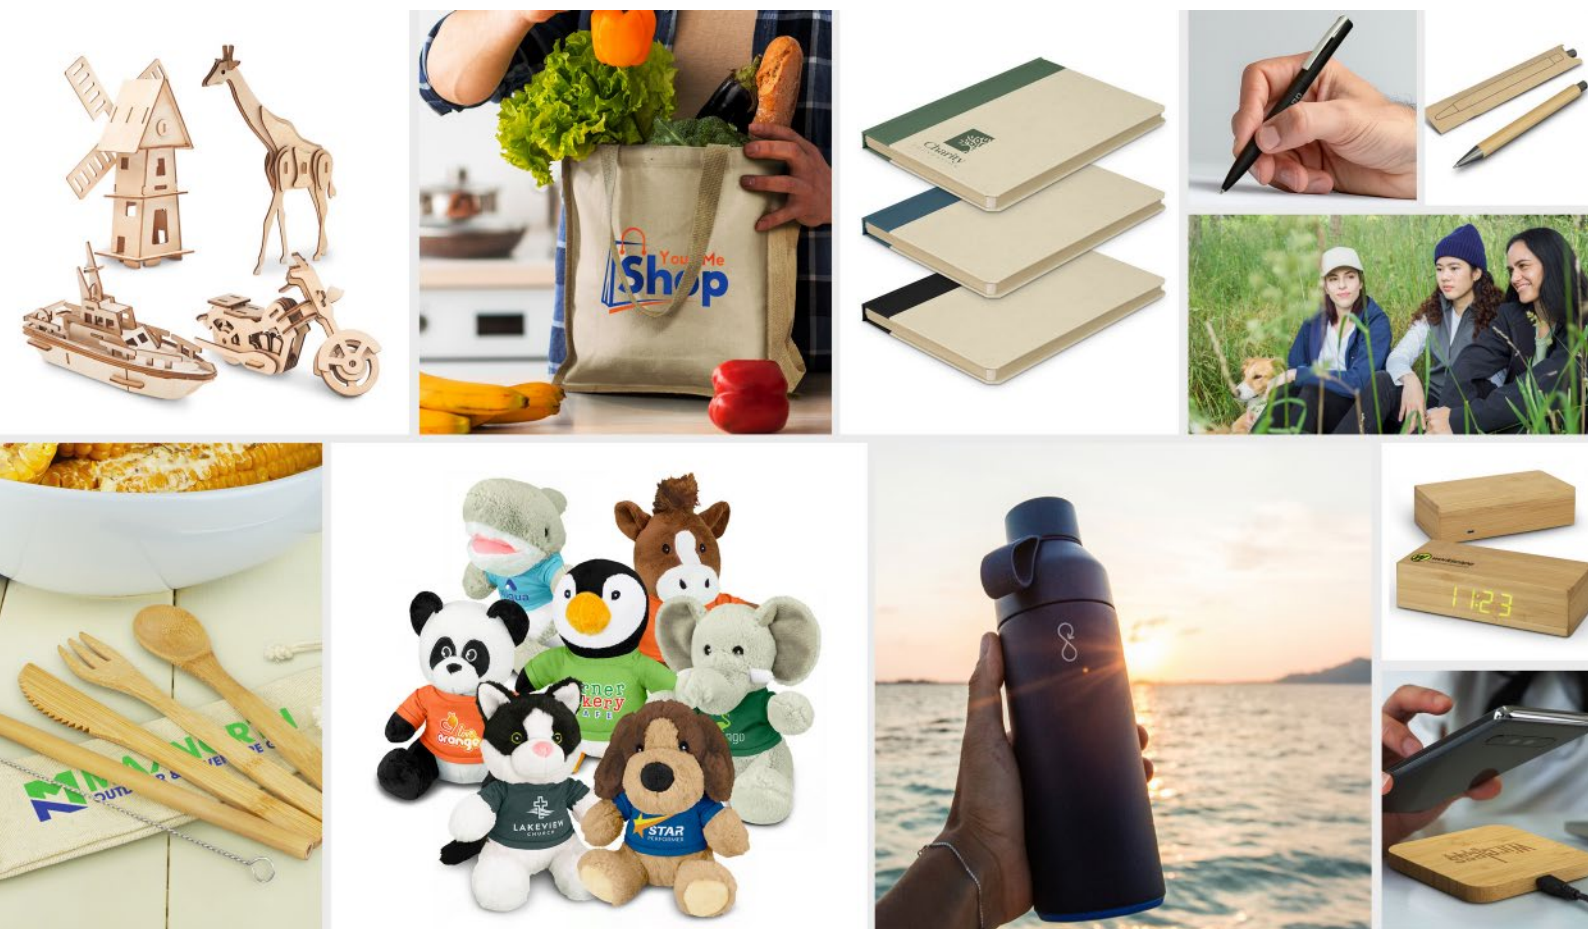

Brands that Give Back

Every product in the range features icons to indicate which pillars they fall under. Many products sit across multiple pillars, so look for the icons that best represent your brand values.

Where the product makes a claim that requires verification, the supporting certifications or testing documents are available on our website.

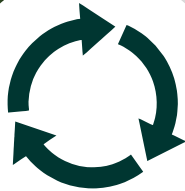

Designed with tomorrow in mind, Impact Aware products provide a conscious approach to branding.

Impact Aware

Impact Aware is our collection of products that offer a lower-impact alternative to standard promotional items. Each item is carefully selected to give you a responsible choice without compromising on quality or value. The Impact Aware icon will help you easily identify products from this collection on our website.

Made with Recycled Materials

Products in this pillar are made from materials that have been recycled, such as recycled plastics, reclaimed fabrics, or recycled paper, giving waste a second life. Choosing these items helps close the loop on resource use.

Made with Natural Materials

Products made from natural fibres and materials like bamboo, cork, jute, and organic cotton are renewable, and require less energy to produce. This pillar features products crafted from nature to reduce environmental impact.

Brands that Give Back

Some brands go beyond their products to make a positive social impact. This pillar features brands that give back to communities and the environment, through profit-sharing, waste reduction, carbon offsetting, local support and more.
